Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

ISSUE DATES

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

Title 1 through Title 16	as of January 1
Title 17 through Title 27	as of April 1
Title 28 through Title 41	as of July 1
Title 42 through Title 50	as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date, consult the "List of CFR Sections Affected (LSA)," which is issued monthly, and the "Cumulative List of Parts Affected," which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cut-off date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request. Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult the List of CFR Sections Affected, 1949-1963, 1964-1972, or 1973-1985. For the period beginning January 1, 1986, a "List of CFR Sections Affected" is published at the end of each CFR volume.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I), and Acts Requiring Publication in the Federal Register (Table III). A list of CFR Titles, Chapters, and Parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of "Title 3—The President" is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the "Contents" entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

EXPLANATION OF THIS VOLUME

GENERAL

This Volume II contains a compilation of the "List of CFR Sections Affected" (LSA) for Titles 17 through 27 of the Code of Federal Regulations (CFR) for the years 1973 through 1985 (Titles 1 through 16 appear in Volume I and Titles 28 through 50 appear in Volumes III and IV). All sections of the CFR which have been expressly affected by documents published in the daily Federal Register during those years are listed. Entries indicate the nature of the changes effected. Page numbers refer to daily Federal Register pages. The volume number appearing at the beginning of each column indicates the year (for example, 38 FR corresponds to 1973, 39 FR corresponds to 1974). Reorganization, redesignation, and distribution tables for certain titles appear at the end of the LSA for that title. Specific references to these tables appear within the text of the LSA.

USE

Reference to this LSA will enable the user to find the precise text of CFR provisions which were in force and effect on any given date during the period covered. To determine the history of a section of any regulation, the user must first look for that section under the pertinent CFR title. Within each title, the entries are arranged chronologically so that all 1973 amendments precede 1974 amendments, and so forth. In addition to the specific section level entries, the user is cautioned to check for general changes that may appear at the title, chapter and part levels.

LEGAL STATUS

This "List of CFR Sections Affected, 1973-1985" does not have the effect of law, regulation or ruling. It is designed as a finding aid for historical research in the various titles of the Code of Federal Regulations.

HISTORICAL RESEACH

For the period prior to 1973, the user should consult the "List of CFR Sections Affected, 1949-1963" and "List of CFR Sections Affected, 1964-1972" published in separate volumes. For the period January 1, 1973 through December 31, 1985, the user should consult this volume. For the period beginning January 1, 1986, the user should consult the specific "List of CFR Sections Affected" that appears in the Finding Aids section of each volume.

GLOSSARY

Since this LSA has been accumulated over an 13-year period, a variety of terms are used. This glossary contains the most commonly used terms.

"Amended" means a typographical unit of the CFR was partially set forth.

"Deleted," "revoked," and "vacated" mean a typographical unit was removed from the CFR.

"Recodified" means major portions of the CFR were restructured or rearranged, or both.

"Redesignated" means a typographical unit or larger was renumbered and transferred from one place to another place in the CFR with no change in text.

"Revised" means a typographical unit of the CFR was set forth in full.

"Suspension" means the entire CFR unit was not in effect for the period of time indicated.

"Technical amendment" means there was a general amendment that may not have substantive effect on regulations.

"Typographical unit" is a numbered, lettered or undesignated entity appearing in the CFR.

Redesignation Table 6

The Environmental Protection Agency reorganized permit program requirements governing the Hazardous Waste Management Program at 48 FR 14146, April 1, 1983. The reorganized regulations concern the National Pollutant Discharge Elimination System (NPDES), Underground Injection Control (UIC), Dredge or Fill (404), and Resource Conservation and Recovery Act (RCRA) Programs. Part 122 was distributed into applicable portions of new Parts 122, 144, 233, and 270. Part 123 was distributed into applicable portions of new Parts 123, 145, 233, and 271.

The following tables show the relationship of the old CFR sections in Parts 122 and 123 to the new CFR sections in Parts 122, 123, 144, 145, 233, 270, and 271.

Redesignation Table 7

The Environmental Protection Agency reorganized permit program requirements governing the Hazardous Waste Management program at 48 FR 14146, April 1, 1983. The reorganized regulations concern the National Pollutants Discharge Elimination System (NPDES), Underground Injection Control (UIC), Dredge or Fill (404), and Resource Conservation and Recovery Act (RCRA) Programs. Part 122 was distributed into applicable portions of new Parts 122, 144, 233, and 270. Part 123 was distributed into applicable portions of new Parts 123, 145, 233, and 271.

The following tables show the relationship of the old CFR sections in Parts 122 and 123 to the new CFR sections in Part 233.

Redesignation Table 8

The Environmental Protection Agency reorganized permit program requirements governing the Hazardous Waste Management program at 48 FR 14146, April 1, 1983. The reorganized regulations concern the National Pollutants Discharge Elimination System (NPDES), Underground Injection Control (UIC), Dredge or Fill (404), and Resource Conservation and Recovery Act (RCRA) Programs. Part 122 was distributed into applicable portions of new Parts 122, 144, 233, and 270. Part 123 was distributed into applicable portions of new Parts 123, 145, 233, and 271.

The following tables show the relationship of the old CFR sections in Parts 122 and 123 to the new CFR sections in Parts 270 and 271.

[1] EDITORIAL NOTE: At 50 FR 4322, Jan. 30, 1985, GSA established the Federal Information Resources Management Regulations System (FIRMR) which consists of integrated provisions formerly appearing in the Federal Procurement Regulations (FPR) and the Federal Property Management Regulations (FPMR). Derivation and distribution tables, which show the relationship of FIRMR sections (Chapter 201) to the FPR/FPMR sources (Chapter 1 and Chapter 101), appear in the Finding Aids section of 41 CFR Chapter 201 to End.

Redesignation Table 2

At 49 FR 20996, May 17, 1984, GSA information resources provisions were consolidated into a single location as Federal Information Resources Management Regulations (FIRMR) under a new 41 CFR chapter 201.

For the convenience of the user, the following tables show the relationship of the old FPR/FPMR numbers and new FIRMR numbers.
